

# SEALED ENCLOSURES

with integrated wall mounting feet

**SERIES**  
**200-F**

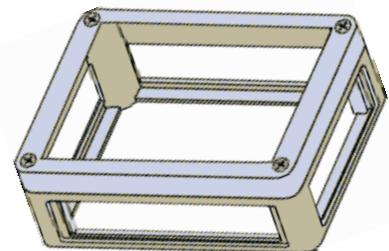

These enclosures are designed to IP65 specifications and are ideal for use in the electrical and electronic industries for use where modern design is important. The moulded enclosures are offered in two different designs and a variety of colours.

The EURO version with designed curved lid and the ECO version with the classic flat lid. Both are available with label recess. The depth of the label recess fit a thin label (0,3 mm) .

### DESIGN FEATURES:

- \* Cover screws are 1/4 turn stainless steel non-magnetic.
- \* Wall mounting feet are integrated
- \* The internal bosses for self tapping screws allow mounting of PCB horizontally or vertically.
- \* The lid and base are fitted together with a tongue and groove sealing system with an gasket.
- \* Low cost black non UL and other colours are available.
- \* NEW also available in black and white.

Many of our tools have inserts on all sides for customized holes
