Splice Box for Cree LMH2 LED Modules

Part No. LMH020-SPLC-0000-0000001

Overview

Designed to be used with the LMH2 LED module, the splice box provides a very quick way to implement the LMH2 LED module in a luminaire. The splice box easily mounts to the side of the LMH2 LED module, allowing lighting manufacturers to perform wire connections and attach the flexible conduit.

Specifications

- Designed to mount to the side of the LMH2 LED Module
- Provides an easy way to perform and house electrical connections
- Overall (mm): 44L x 23.1W x 37.1H
- Interior (mm): 27L x 18.8W x 35H
