INLINE FUSE HOLDERS

Moulded in natural colour nylon.
 Supplied without fuses.
 Fuses 5 amp maximum.
 For flexible leads, add L to Cat. No.

F33 For 15.9mm long x 4.7mm dia. fuses
 or 20mm long x 5mm dia fuses.
 Overall length 36.5mm.

F35 For 31.7mm long x 6.3mm dia. fuses
 Overall length 50.8mm.

F33 = A003300

F35 = A003500

IMPORTANT

Assembly instructions for In-Line Fuseholders

	Loose Parts	With leads
Types	F003300	L003300
	F003500	L003500

1. Crimp or solder eyelets securely to leads. No bare wires exposed at ends of casing.
2. Thread one lead through spring and insert into longer half of casing. Ensure positive eyelet contact with fuse cap. Spring must not carry current.
3. Ensure no strain on leads to avoid possibility of reduced spring pressure and circuit interruption.
4. Maximum fuse rating 5 amp. **When used on mains circuits (100V or above) these assemblies must be located inside an enclosure inaccessible to unauthorised persons.**
