Overview

The Small Solar Panel 80x100mm 1W is a monocrystalline solar panel with high energy transformation efficiency, suitable for DIY projects. It features a waterproof resin surface and sturdy back for outdoor use, and includes a 2mm JST connector for compatibility with solar-power-supply boards.

Key Features

- Made of single-crystal material (monocrystalline) that performs high solar energy transformation efficiency
- Small but able to provide enough power for your DIY projects
- A fine resin surface which makes it waterproof and a sturdy back suitable for outdoor environments
- A 2mm JST connector is attached to the panel, which makes it perfect to team up with most of our can-use-solar-power-supply boards
