

10BASE-T1S Ethernet PHY Transceiver LAN8670 USB Evaluation Board (EVB-LAN8670-USB)

User's Guide

Note: This User's Guide, although specific to the LAN8670, can provide some useful information for those implementing LAN8671 and LAN8672 within their designs. Please contact Microchip Support and Sales for additional evaluation board information and for further support with your evaluation needs.

Note the following details of the code protection feature on Microchip devices:

- · Microchip products meet the specifications contained in their particular Microchip Data Sheet.
- · Microchip believes that its family of products is secure when used in the intended manner and under normal conditions.
- There are dishonest and possibly illegal methods being used in attempts to breach the code protection features of the Microchip devices. We believe that these methods require using the Microchip products in a manner outside the operating specifications contained in Microchip's Data Sheets. Attempts to breach these code protection features, most likely, cannot be accomplished without violating Microchip's intellectual property rights.
- Microchip is willing to work with any customer who is concerned about the integrity of its code.
- Neither Microchip nor any other semiconductor manufacturer can guarantee the security of its code. Code protection does not
 mean that we are guaranteeing the product is "unbreakable". Code protection is constantly evolving. We at Microchip are
 committed to continuously improving the code protection features of our products. Attempts to break Microchip's code protection
 feature may be a violation of the Digital Millennium Copyright Act. If such acts allow unauthorized access to your software or
 other copyrighted work, you may have a right to sue for relief under that Act.

Information contained in this publication is provided for the sole purpose of designing with and using Microchip products. Information regarding device applications and the like is provided only for your convenience and may be superseded by updates. It is your responsibility to ensure that your application meets with your specifications.

THIS INFORMATION IS PROVIDED BY MICROCHIP "AS IS". MICROCHIP MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND WHETHER EXPRESS OR IMPLIED, WRITTEN OR ORAL, STATUTORY OR OTHERWISE, RELATED TO THE INFORMATION INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF NON-INFRINGEMENT, MERCHANTABILITY, AND FITNESS FOR A PARTICULAR PURPOSE OR WARRANTIES RELATED TO ITS CONDITION, QUALITY, OR PERFORMANCE.

IN NO EVENT WILL MICROCHIP BE LIABLE FOR ANY INDI-RECT, SPECIAL, PUNITIVE, INCIDENTAL OR CONSEQUEN-TIAL LOSS, DAMAGE, COST OR EXPENSE OF ANY KIND WHATSOEVER RELATED TO THE INFORMATION OR ITS USE, HOWEVER CAUSED, EVEN IF MICROCHIP HAS BEEN ADVISED OF THE POSSIBILITY OR THE DAMAGES ARE FORESEEABLE. TO THE FULLEST EXTENT ALLOWED BY LAW, MICROCHIP'S TOTAL LIABILITY ON ALL CLAIMS IN ANY WAY RELATED TO THE INFORMATION OR ITS USE WILL NOT EXCEED THE AMOUNT OF FEES. IF ANY, THAT YOU HAVE PAID DIRECTLY TO MICROCHIP FOR THE INFORMATION. Use of Microchip devices in life support and/or safety applications is entirely at the buyer's risk, and the buyer agrees to defend, indemnify and hold harmless Microchip from any and all damages, claims, suits, or expenses resulting from such use. No licenses are conveyed, implicitly or otherwise, under any Microchip intellectual property rights unless otherwise stated.

Preface

NOTICE TO CUSTOMERS

All documentation becomes dated, and this manual is no exception. Microchip tools and documentation are constantly evolving to meet customer needs, so some actual dialogs and/or tool descriptions may differ from those in this document. Please refer to our web site (www.microchip.com) to obtain the latest documentation available.

Documents are identified with a "DS" number. This number is located on the bottom of each page, in front of the page number. The numbering convention for the DS number is "DSXXXXXA", where "XXXXXX" is the document number and "A" is the revision level of the document.

INTRODUCTION

This chapter contains general information that will be useful to know before using the EVB-LAN8670-USB. Topics discussed in this chapter include:

- Intended Use
- Document Layout
- Customer Support
- Document Revision History

INTENDED USE

This Microchip product is intended to be used for developing or testing 10BASE-T1S Ethernet network devices by persons with experience in this field of knowledge.

Note: The operation of this Microchip product is only admitted with original Microchip devices.

Do not interfere with the product's original state. Otherwise, user safety, faultless operation and electromagnetic compatibility are not ensured. To avoid electric shocks and short circuits use this device only in an appropriate environment.

This open device may exceed the limits of electromagnetic interference. Electromagnetic compatibility can be only achieved if the equipment is built into an appropriate housing.

DOCUMENT LAYOUT

This user's guide describes how to use the EVB-LAN8670-USB. The document is organized as follows:

- Chapter 1, Introduction This chapter introduces the EVB-LAN8670-USB. It shows an illustration of the board and lists the product features.
- Chapter 2, Board Details This chapter gives an overview of jumpers, connectors and electrical characteristics.
- Chapter 3, Assembly Plan and Mechanical Dimensions This chapter shows the assembly plan (top and bottom views) and the mechanical dimensions of the board.

CUSTOMER SUPPORT

Users of Microchip products can receive assistance through several channels:

- · Distributor or Representative
- · Local Sales Office
- Field Application Engineer (FAE)
- Technical Support

Customers should contact their distributor, representative or field application engineer (FAE) for support. Local sales offices are also available to help customers. A listing of sales offices and locations is included in the back of this document.

Technical support is available through the web site at:

http://www.microchip.com/support.

DOCUMENT REVISION HISTORY

Revision B (July 2021)

· Removed document status and confidential ranking

Revision A (May 2021)

· Initial release of this document

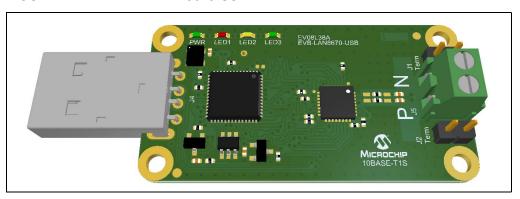

Chapter 1. Introduction

1.1 OVERVIEW

The EVB-LAN8670-USB utilizes Microchip's LAN9500A, which is a Hi-Speed USB 2.0 to 10/100 Ethernet controller, to interconnect a USB interface with a 10BASE-T1S Ethernet network interface. Thus, the adapter serves as a network card that connects applications via USB to the 10BASE-T1S network interface.

FIGURE 1-1: EVB-LAN8670-USB

1.2 PRODUCT FEATURES

- USB to 10BASE-T1S interface card
- 10 Mbit/s short-reach single-pair Ethernet physical layer transceiver
 - Half-duplex point-to-point link segments
 - Half-duplex multidrop mixing segments
- · Connects to a USB host
- Physical Layer Collision Avoidance (PLCA)
- Screw terminal for direct cable connection (no connector needed)
- Configurable on-board termination

NOTES:

Chapter 2. Board Details

2.1 ELECTRICAL CHARACTERISTICS

Parameter	Min.	Тур.	Max.	Unit
USB Connector Voltage	4.75	5	5.25	V

2.2 CONNECTORS

All connectors are mounted on the top side of the board.

2.2.1 USB Connector

The EVB-LAN8670-USB provides a USB connector (J4) to connect to a USB device.

Type: 0480370001, standard type A, from Molex[®]

2.2.2 Network Connector

The network connector (J5) is used as the interface to the network.

Type: 691214110002, fixed terminal block, from Würth Elektronik

The terminal pins are described in Table 2-1.

TABLE 2-1: J5 – PIN DESCRIPTION

Pin	Description
Terminal 1	TRX_P
Terminal 2	TRX_N

2.3 JUMPERS

All jumpers are mounted on the top side of the board. The location of the jumpers is depicted in Figure 3-1.

2.3.1 Termination

The termination jumpers (J1 and J2) are used for enabling 100 Ohm edge termination at the ends of a 10BASE-T1S segment.

Note: Both jumpers must be closed to enable edge termination.

2.4 **LEDS**

All LEDs are mounted on the top side of the board.

The table below gives an overview of the LEDs and the states they signal.

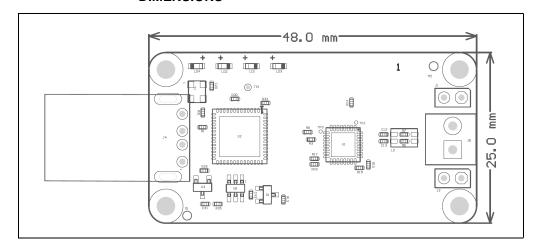

Name	State	Description
PWR	Off	The EVB-LAN8670-USB is not powered.
	On (green)	The EVB-LAN8670-USB is powered.
LED 1	Off	Future use
	On (red)	
LED 2	Off	
	On (yellow)	
LED 3	Off	
	On (green)	

Chapter 3. Assembly Plan and Mechanical Dimensions

3.1 TOP VIEW AND MECHANICAL DIMENSIONS

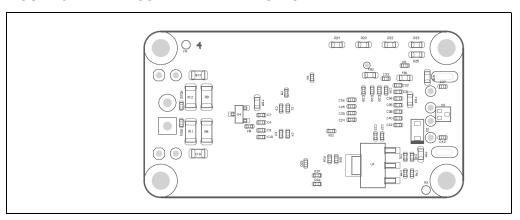

The mechanical dimensions are shown in Figure 3-1.
