

Vampire is the new battery-free hand held vacuum pick up pen designed for the safe pick-up of SMD components during assembly, test and rework processes. With fountain-pen dimensions, Vampire grabs, lifts and places components in complete safety, aided by a powerful internal piston and a full ESD protection. A complete choice of tips designed for any size of SMD component helps the operator to have always the right tool in hand. The Classic version uses needles and cups, while the High Power version uses the exclusive H.P. special tips, which are designed to lift the larger components, minimizing the air leakage and therefore increasing the holding time. The solid plated aluminium body, the powerful piston mechanism, the ergonomic grip make Vampire the best portable tool for SMD on the market.

VAMPIRE

Item: **CLASSIC VAMPIRE SET**

Part number: **UVO0000000**

Description:

Vacuum tweezer set including: 1 Vampire body, 1 conductive metal straight needle, 1 45° angled metal needle, 1 conductive rubber cup 4mm, 1 conductive rubber cup 6mm, 1 conductive rubber cup 9 mm, 1 lubricant kit
