

High-voltage wires | FlexiVolt-HV / FlexiPlast-HV

FLEXIVOLT-HV / FLEXIPLAST-HV

Highly flexible, reinforced insulated stranded wires. Super-fine Cu strand, bright-soft, tightly twisted.

- FlexiVolt-HV (type FLEXI-HV 0,75): with double-layer insulation (inside natural, outside colored).
- FlexiPlast-HV (type PLAST-HV 0,5 SN): tin-plated strands, chlorine-free, doublelayer insulation (inside natural, outside colored).

Typical Application

Flexible high voltage wiring, hand-held test leads for high voltage tests.

ORDER NO.	TYPE	RATED VOLTAGE V	RATED CURRENT A
60.7067- *	FLEXI-HV 0,75	10000	15
60.7460- *	PLAST-HV 0,5 SN	5000	10
