

Automatic Junior with Fiber Brushes (non metal)

This automatic cleaner improves **thermal transfer of the tip in only 1 second**, which means you save time and optimize production.

CL4008 Fiber Brushes supplied provides a **soft cleaning**, specially recommended in **regular usage** to improve tip life.

The operator just needs to push the button of the opening with the tool and two motorized brushes will clean the tip. It is also possible to select the continuous mode.

The splashguard helps keep the bench **always clean and free of Foreign Object Debris (FOD)**.

CLMS can be fitted into any work area thanks to its **reduced size and it is very easy to maintain**. The solder collector tray can be emptied and re-used with no wear and tear.
