AMEOFL10-480LPZ

Open frame

The AMEOFL10-480LPZ series is one of Aimtec's highly efficient 10W AC-DC converter series. They feature an ultra-wide input range accepting either AC or DC voltage, high efficiency, compact size, an open-frame package, low power consumption and CLASS II reinforced insulation. A variety of EMC external circuits meet the needs of multiple industries.

This new series offers great operating temperatures, from -40°C to 85°C also features an isolation of 4000VAC for improved reliability and system safety. Furthermore, a high MTBF of 350,000h, output short circuit protection (OSCP) and an output over-current protection (OCP) come standard with the series.

All models are particularly suitable for industrial control, 3-phase applications and instrumentation.

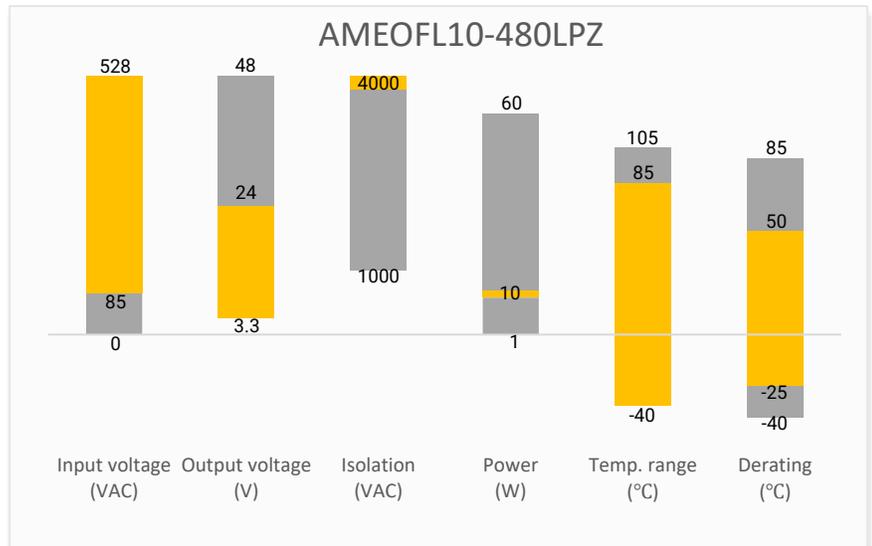

Features

- Ultra-Wide Input: 85 - 528VAC/100 - 745VDC
- Operating Temp: -40 °C to +85 °C
- High isolation voltage: 4000VAC
- Low ripple & noise, 250mV(p-p), max.
- Output short circuit, over-current protection
- Open frame package

- With the variable combination of below Surge and EMI circuits which offer the different level of protection.
- The components in the red frame area are mandatory for the typical application circuit.
- A suppressor diode (TVS) is recommended to protect the application in case of a converter failure and specification should be 1.2 times of the output voltage.
- C1/C2 capacitor recommendation: ripple current > 200mA@100KHz, ESR ≤ 100Ω at low temperature
