

INTERFLUX[®] ADHESIVE REMOVER WIPES

Description

Solvent for removal of uncured adhesives.

Application

Interflux[®] ADHESIVE REMOVER wipes have specifically been developed to meet the demanding precision cleaning needs of high technology industries such as electronics and aerospace. It has proven to be effective in removing uncured adhesives in automated screen printers. It is also recommended as a suitable replacement for IPA, TCA, MEK, acetone and CFC-based cleaners in hand wipes and no rinse applications.

Features and advantages

- Versatile, powerful cleaner for use on metals, plastics and glass
- Low surface tension allowing excellent wetting and penetration into constricted areas
- Swift drying leaving no residue
- Worker / Environment-friendly with low odour and no ozone depleting substances
- Lint-free wipes

Chemical Composition

Interflux[®] ADHESIVE REMOVER is a solvent blend. These ultra-pure materials provide superior solvency, good wetting, and dispersing characteristics.

Physical properties

Flash Point:	>61°C	Boiling Point:	175 - 236°C
Odour:	Minimal to no odour	Appearance:	Clear Liquid
Specific Gravity @15°C:	0.797	Solubility in water:	Partial

Storage

Interflux[®] ADHESIVE REMOVER is a stable solution and should be stored in sealed containers of suitable materials. This product is neither corrosive nor ozone depleting. Though non-flammable at ambient temperature, it should not be stored or used near open flame or ignition sources. The Material Safety Data Sheets contain further safety information and should be consulted when using this product.

Packaging

Interflux[®] pre-saturated ADHESIVE REMOVER wipes are available in 100 pieces canisters.

Health and safety

Wear Nitrile gloves when using the wipes! Read the Material Safety Data Sheets before use!.
