

Wipes for stencil cleaning

Description:

The Interflux[®] **Stencil clean wipes** are pre-saturated wipes with a special solvent blend for the removal of solder paste and non cured SMT adhesive from stencils, tools and other surfaces in a production environment.

The wipes are non woven and lint free and hence do not leave lint residues.

After cleaning a surface with the stencil clean wipes a dry wipe or IPA/DI wipe is advisable.

To reduce waste, the wipes are also available in a handy refill bag.

Products pictured may differ from the product delivered

Key properties

- Very suitable for solder paste and non cured SMT adhesive
- Lint free, non woven fabric

Physical and chemical properties of the solvent blend

Colour	colourless
