

SpotCheck ReelEstimator

**SpotCheck
ReelEstimator**
IN25050

**Always wanted to know how many parts
remain on a broken SMT reel?**

**It can be done with the SpotCheck
ReelEstimator!**

- in 4 easy steps
- suitable for all thickness and sizes
- for reels of 18 as well as 33 cm.
- even if the reels are on the machine
- accuracy within 5%
- economically uses a 9V battery
(included)
- much faster and cheaper than other
counters
