

AC/DC adapter

Model: **AK-CH-17**

Product code	AK-CH-17
Product type	AC/DC adapter
Series	Universal
Responsible Entity	Akyga Europe Sp. z o.o., 52-200 Suchy Dwór, Wrocławska 1c, Polska/Poland, contact@akyga.com
Supply voltage	110-240 V / 50/60 Hz
Power consumption	< 2 A
Maximum power	65 W
Mechanical switch	None
Ground wire	None (II protection class)
OVP	Yes
OCP	Yes
OTP	Yes
SCP	Yes
Power supply connector	IEC C8
USB-A output voltage	QC1/QC2 - 5V / 3A, 9V / 2A, 12V / 1.5A (max.15 W)
USB-C output voltage	PD1 - 5V / 3A, 9V / 3A, 12V / 3A, 15V / 3A, 20V / 3.25A (max. 65 W), PPS - 3.3-11V / 3A, PD2 - 5V / 3A, 9V / 2.25A, 12V / 1.67A (max. 20 W)
Compliance with DCP (Dedicated Charging Port)	Yes
Material	ABS
Product color	Black
MTBF	100000 h
Temperature	5 - 50 °C
Package	EcoBox
Product size (L x W x H)	37 x 38 x 102 mm
Package size (L x W x H)	50 x 89 x 185 mm
Net weight	230 g
Gross weight	319 g
CE compatibility	Yes
FCC compatibility	Yes
RoHS compatibility	Yes
REACH compatibility	Yes
Included accessories	Cable IEC C7 1.5 m
EAN code	5901720137371
Warranty	24 months

Description

Akyga® AK-CH-17 Charge Brick is a **universal USB charger** with a power of **65 W**. It is used to power both small electronic devices and those requiring much more power. The adapter has **4 USB ports**, so you can charge several devices at once! This is a very convenient solution nowadays, especially if you use many different mobile devices. Devices such as smartphones, tablets and even some laptop models support charging via a USB port. This means that you only need one charger to charge each of these devices. What's more, the adapter has **two USB-C ports** with the **Power Delivery 3.0 (PD) standard**. This will not only allow you to charge your devices quickly, but also to adapt the charging parameters to the connected device. An equally useful feature is the **two USB-A ports**. They support **Quick Charge 4+** and the less popular **DCP, AFC (Samsung)** and **FCP/SCP (Huawei)**. This means your devices will be charged faster than ever. This way, you can power any equipment from a single socket without worrying about damaging it. This is especially important when you want to power your laptop at one time and your wireless headphones or phone at another.

An unquestionable advantage of **AK-CH-17 fast charger** is the ability to complete cables according to your needs. Both the charger power cable and the USB cables can be selected according to your current requirements. This means that we not only have **the possibility to change the length of the cable**, but also its termination. Depending on your needs, we can connect a cable with a USB Type C, micro USB, Lightning, as well as DC end. If you are travelling abroad, you can change the plug type to the corresponding power socket in that country.

The set includes IEC C7 power cable with a length 1.5 m.
