

Power cable

Model: **AK-OT-01S**

Product code	AK-OT-01S
Product type	Power cable
Responsible Entity	Akyga Europe Sp. z o.o., 52-200 Suchy Dwór, Wrocławska 1c, Polska/Poland, contact@akyga.com
Ground wire	Yes
Cable length	1.5 m
The cable plug #1	Hybrid standard C/E/F (CEE 7/7)
The cable plug #2	Without termination
Cable material	Copper
Wire gauge	3x 1.5 mm ²
Product color	Black
Product size (L x W x H)	250 x 60 x 40 mm
Net weight	216 g
CE compatibility	Yes
FCC compatibility	No
RoHS compatibility	Yes
REACH compatibility	Yes
EAN code	5906708750573
Warranty	24 months

Description

The **Akyga® AK-OT-01S CEE 7/7 repair cable** is a reliable power cord designed for repairing or replacing damaged cables in electrical appliances. Equipped with a standard Schuko plug (hybrid – fits both French and German grounded sockets), it ensures wide compatibility with devices used in most European countries. This makes it the perfect choice for home, workshop, and industrial equipment.

CEE 7/7 Power Cable – a Guarantee of Durability and Efficiency

The Akyga® AK-OT-01S **CEE 7/7 cable** is made of copper, with **three cores**, each with a **cross-section of 1.5 mm²**. This design allows for the safe power supply of high-demand devices, while ensuring low energy losses and resistance to heating. It is the optimal solution for household appliances, power tools and other equipment requiring a reliable power source.

Schuko Repair Cable – Flexible for Everyday Use

The **1.5 m long CEE 7/7 power cable** is the perfect compromise between freedom of installation and ease of cable routing in confined spaces. It is ideal for domestic and professional applications where mobility is required without excess cable.

Robust Construction and Safety

The insulation of the CEE 7/7 cable is made of durable, flexible PVC, resistant to mechanical damage, bending, and external factors. The product complies with safety standards and is equipped with earthing, which protects the user and connected devices from the effects of short circuits and surges.

Ideal for Repairs and Upgrades

The AK-OT-01S is a typical **CEE 7/7 repair cable**, perfectly suited as a replacement for worn or damaged leads in various types of equipment. One end features a ready-made plug, while the other is stripped and prepared for manual installation – allowing the user to tailor the connection to their specific needs.
