

Power cable

Model: **AK-PC-01S**

Product code	AK-PC-015
Product type	Power cable
Series	Copper
Responsible Entity	Akyga Europe Sp. z o.o., 52-200 Suchy Dwór, Wrocławska 1c, Polska/Poland, contact@akyga.com
Output voltage	250 V
Output amperage	10 A
Ground wire	Yes
Cable length	1.5 m
The cable plug #1	Hybrid standard C/E/F (CEE 7/7)
The cable plug #2	IEC C13
Cable material	Copper
Wire gauge	3x 1.5 mm ²
Product color	Black
Product size (L x W x H)	280 x 70 x 30 mm
Net weight	228 g
CE compatibility	Yes
FCC compatibility	No
RoHS compatibility	Yes
REACH compatibility	Yes
EAN code	5906708750580
Warranty	24 months

Description

Akyga® AK-PC-01S is a high-quality **CEE 7/7 / IEC C13 PC power cable** designed to power desktop computers, monitors, printers and other office and electronic devices. Thanks to the use of a standard CEE 7/7 plug and IEC C13 connector, the cable is fully compatible with most equipment available on the European market. It is the perfect choice for home, office or server room use.

High-Quality IEC C13 Power Cable

The AK-PC-01S cable is constructed with **copper conductors of 3×1.5 mm² cross-section**, ensuring excellent conductivity and minimal energy loss. The copper-based design ensures a stable power supply even under heavy loads, protecting equipment from voltage drops and overheating. The cable is ideal for devices with higher power consumption, ensuring their reliable operation.

1.5 m Computer Cable

The 1.5 m IEC C13 power cable provides convenient connection of devices located at a typical distance from the power outlet. The cable is flexible enough to be easily routed behind a desk or in a server cabinet, yet sturdy enough to remain stable and safe during prolonged use.

Durable Insulation and Safe Operation

The outer sheath of the cable is made of abrasion- and bend-resistant PVC, which effectively protects the internal wires from mechanical damage. Built-in grounding and robust connectors ensure complete protection for both the user and the connected equipment. The cable complies with European safety standards, confirming its reliability in everyday use.

Professional Use and Versatility

The AK-PC-01S power cable is a solution that combines durability, flexibility and compatibility. It can be used as a replacement for the factory power cord in PCs, monitors, UPSs, projectors and other devices with an IEC C14 socket. Its robust design makes it suitable for both home and professional work environments.
