USB-C Plug

Easy to Use

## Description

# Convert Your Old Laptop Power Adapter into a Universal Charger

The adapter with **7.9x5.5 mm + pin connector to USB-C** Akyga® AK-ND-D01 is a practical solution that allows you to repurpose a traditional laptop power adapter for charging modern devices. This allows you to power a laptop or smartphone with a USB-C port without the need to purchase additional chargers.

## Supports USB-C Power Delivery up to 65W

The Akyga® AK-ND-D01 **USB-C adapter** supports **Power Delivery technology** with voltages of 5 V, 9 V and 20 V enabling efficient charging of devices with **up to 65 W of power**. It is ideal for powering a wide range of mobile devices, including ultrabooks and tablets that require fast charging.

## Compact and Lightweight - Perfect for Travel

Thanks to its compact size and lightweight design, **the 7.9x5.5 mm + pin power adapter** is extremely convenient for everyday use. It fits easily into a bag or pocket, making it the ideal accessory for both work and travel.

## A Simple Way to Increase Compatibility

Instead of investing in a new charger, simply plug **the USB-C adapter** into an older laptop power adapter to bring it up to modern standards. This is a convenient and cost-effective solution that allows you to use your working power devices for longer.
