Description

USB-C to Laptop Power Adapter - A Second Life for Your Old Charger

The Akyga® AK-ND-D09 is a practical **USB-C to laptop power adapter**. It allows you to connect modern mobile devices with a USB-C port to an older power adapter with a **5.5x3.0 mm + pin** plug. This is the perfect solution at a time when new laptops, tablets and smartphones are increasingly being sold without a charger. With this adapter, you can reuse your existing power adapter and avoid buying additional equipment.

Fast Power Delivery Charging

The USB Type C adapter AK-ND-D09 supports **the Power Delivery standard**, which means efficient and safe charging **up to 65 W**. This makes it suitable for powering a wide range of devices – from ultrabooks and phones to USB-C powerbanks and accessories. Whether you're at home, in the office or on the road, the adapter will provide stable power wherever you need it.

Compact Size - Maximum Convenience

The USB-C adapter for laptop power supply is an accessory created with mobility and functionality in mind. Its compact size means that it will easily fit in your pocket, bag or backpack. It is the ideal adapter for people who want to reduce the number of chargers and at the same time use the full potential of their existing devices.
