MICROCHIP

Part Number : DM303008 - KEELOQ 3 Development Kit (with PICkit 3)

The low-cost KEELOQ 3 Development Kit is designed to help engineers get up-to-speed quickly on PIC microcontrollers (MCUs). The kit provides everything you need to program, debug, and develop secure authentication applications for a variety of markets such as security systems (keypads, remote sensors, and access control), remote keyless entry (automotive), and authentication (identity and property) applications.
