# STELLARIS-UEXT

TOP SIDE   BOTTOM SIDE

ADAPTER FOR CONNECTING OLIMEX MODULES TO TEXAS INSTRUMENTS STELLARIS BOARDS

This adapter makes it possible for LaunchPad Stellaris boards with BoosterPack XL Interface headers to interface easily Olimex modules. Something more it features two full UEXTS so you can connect TWO modules at the same time. Expand your Stellaris LaunchPad with the expansion boards made by Olimex with ease!

FEATURES

-LaunchPad BoosterPack XL interface female headers
-2 x male UEXT connectors = 2 x SPI + 2 x I2C + 2 x UART
-SMD jumpers provided for swap of RX and TX of both UARTs
-Dimensions: 48.3 x 24.4 mm (1.9 x 1.0")

Note that your LaunchPad needs to be Stellaris series else the adapter will not fit (for example it will not work with LaunchPad MSP430)
