Description

Advanced Power MOSFETs from APEC provide the designer with the best combination of fast switching, low on-resistance and cost-effectiveness.

The AP9575AGH-HF-3 is in the TO-252 package, which is widely used for commercial and industrial surface-mount applications, and is well suited for low voltage applications such as DC/DC converters.

The AP9575AGJ-HF-3 is in the TO-251 through-hole package which is used where a small PCB footprint or an attached heatsink is required.
