

## FIELD SERVICE KIT

The Portable Field Service Kit protects installed electronic components from static damage as a result of normal handling during field maintenance and repair. It has two pockets and one 10mm press stud for Wrist-strap and Grounding cord connection.

- 3 Layer Mat RED/BLACK colour, 600x600mm dim.
- Surface resistance  $R_s \leq 10^9 \Omega$
- Point to ground resistance  $R_g \leq 10^9 \Omega$
- 1 adjustable wrist strap + 1 grounding cord 3m length

PORTABLE FIELD SERVICE KIT

## ELECSTAT-G ESD CLEANER

A topical antistatic cleaning solution for use on dissipative and non-ESD surfaces. After it has been applied and the surface dries, an antistatic and protective static dissipative coating is left behind. This enhances existing ESD surfaces and will give temporary electrical properties to insulative surfaces.

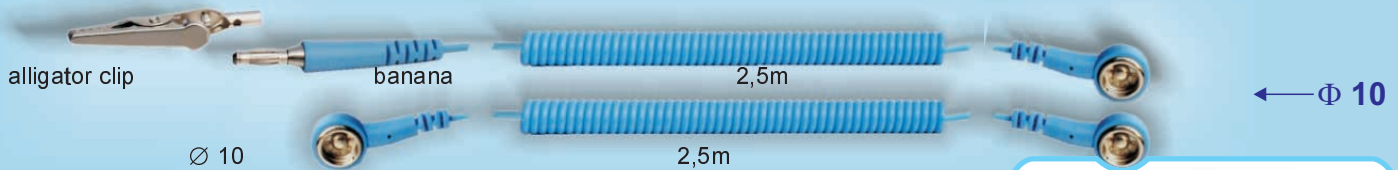

$R_s < 10^{11} \Omega$

7805.890

Bottle, 0.75 litre spray  
5 litre Can/e

## WRISTSTRAP

The wrist strap is the most common and effective means of controlling ESD generated from people, it should be worn at all times by anyone at the work station. Our adjustable wrist strap includes an extendible coiled cord fitted with 1M $\Omega$  resistor.

- 7804.190 Adjustable wrist strap, blue colour, with coiled cord banana/socket, alligator clip  
 7804.193 Adjustable wrist strap, blue colour, with coiled cord socket/socket  
 6604.804 Spare Wrist-band  
 6604.803 Spare coiled cord, banana/socket  
 7804.885 Spare coiled cord, socket/socket

- 7804.192 ANTI-ALLERGENIC wrist strap with coiled cord  
 6604.805 Spare Wrist-band  
 6604.803 Spare coiled cord

- 7804.188 Metal wrist strap, with coiled cord  
 6604.808 Spare Wrist-band  
 6604.809 Spare coiled cord
