

ELECTRONIC SERVICE-CASE SECURITY 6750

A case with the basic equipment of special tools for the installation and maintenance of complex protective devices and alarm systems

The unique design of this case caused by the compact shape and the structured surface guarantees a solution of highest sturdiness.

The case body is made of X-ABS plastic which is covered by an extreme antislip and scratch-resistant lamination as an excellent protection against external influences. The ergonomical shaped handle together with the special hinges with topcase lock completes the picture of a high functional and modern tool case.

The removable tool trays made of ConPearl® with sewed pouches from imitation leather are sturdy, washable and exchangeable.

The 60 mm high bottom plastic tray is divided by adjustable partitions.
